DETERMINE UNIT SIZE

See homeowner's manual for information on determining the proper size unit for the space required.

APPLIANCE LOCATION

CLEARANCES TO COMBUSTIBLES

Floor Clearance — The fireplace may be installed directly on a combustible floor or a raised platform of an appropriate height. Do not place fireplace on carpeting, vinyl, tile or other soft floor coverings. It may, however, be placed on flat wood, plywood, particle board or other hard surfaces. Be sure fireplace rests on a solid continuous floor or platform with appropriate framing for support and so that no cold air can enter from under the firebox.
